## Product parameters

Series: F500 Electrophoresis flat lower rod-crystal head

Color: Porcelain white, Pearl black

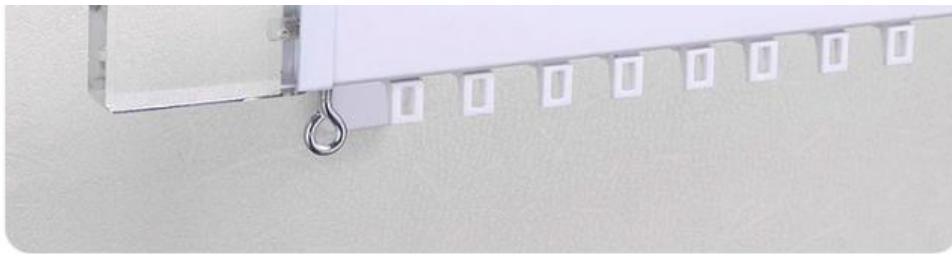

Technologies: Electrophoresis

Material: Original ecological aluminum

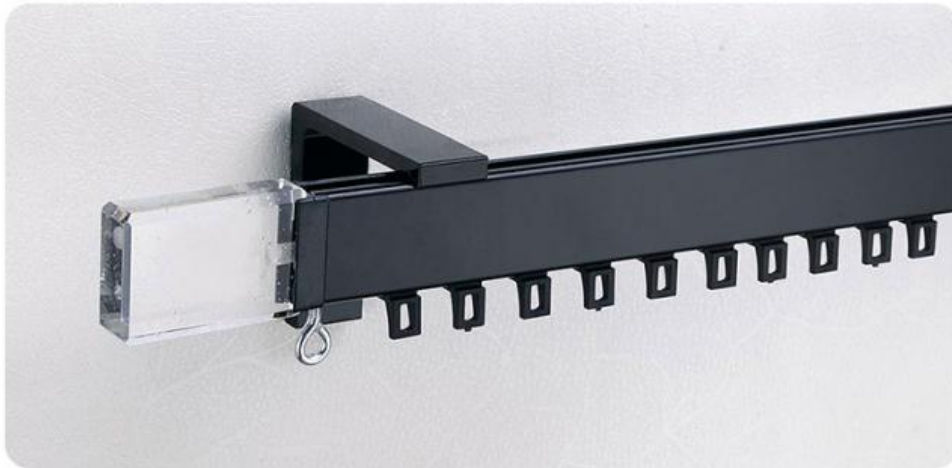

Thickness: 1.2mm

Rail type: Square rail

- 1.1 piece = 1 meter. How many meters you need, just take corresponding piece. The price for double rail is twice than the single rail.
2. If the purchased quantity is not an integer, we can change the price for you (measurement size \* 1 meter unit price = actual price). Less than one meter is counted as one meter.
3. If the rail is more than 2.9 meters, it shall be cutted into two pieces when deliver it, and will give the connectors for connection. It will not affect the use.
- 4.1 set with two seals, one meter with two mounting codes, eight running beads and two sets of screw rubber plugs

| Pearl black

## Size recommendations

Warm tips: any size can be customized, if necessary, please contact customer service.

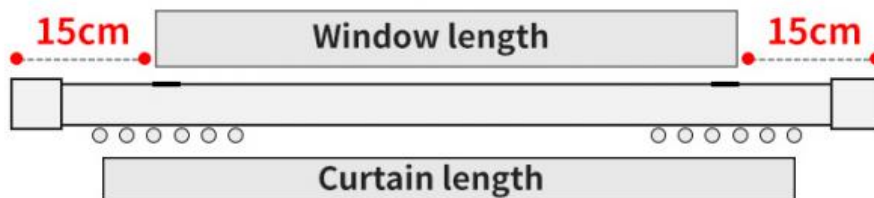

**01**

Reduce 1cm gap at both ends of the whole wall  
For example: the whole wall is 380cm, and the total length of rod + ending is 378cm

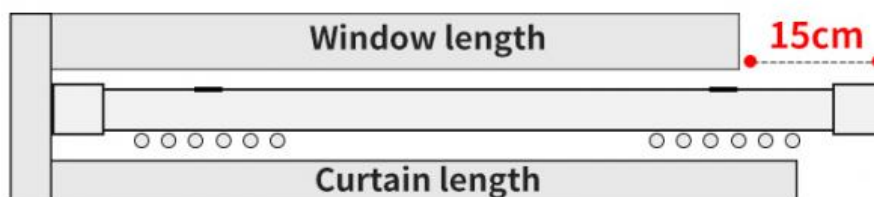

**02**

On the basis of the width of the window, there is about 15cm more on each side.  
 For example: the width of the window is 180cm, and the total length of the rod + ending is about 210cm.

### 03

It is suggested that one side next to the wall should be provided with sealing and the other side should be equipped with decorative ending, the length of the side with decorative ending is increased by about 15cm.

**Tips:** the calculation formula of rod length has included the size of decorative ending! (customized products will not be returned or replaced if they are not the quality problems)

## Company Profile

### COMPANY INFORMATION
