Product Description

Ready Ship Finished Product New Pink White Brown Design Fabric Vertical Blinds For Luxury Home

Benefits of Choosing Vertical Blinds

- **Durable:** Vertical blinds are constructed from durable materials like PVC, faux wood, and fabric. PVC and faux wood are great choices in areas with lots of moisture, since they are resistant to warping and cracking.
- **Coverage:** Vertical blinds open horizontally, which make them a popular choice for covering sliding glass or patio doors. They're also ideal for covering large windows that run floor-to-ceiling.
- **Easy to Clean:** Vertical blinds are one of the easiest window treatments to clean, PVC and faux wood vertical blinds can be occasionally wiped down with a damp cloth or dust remover to keep them clean.

How to choose the size

Inside or outside installation

Inside Installation Suggestion

Choose the inside installation way:

The width of roller blinds (W) should be shorter than the insided width of windows (W1) by 1 to 5cm.

Outside Installation Suggestion

Choose the outside installation way:

The width of roller blinds (W) should be wider than the outside width of windows (W2) by 2 to 10cm.

Please write to us if you have any questions.
