## Product Description

### Non Perforated Honeycomb Curtains Bedroom, Living Room, Electric Blinds, Curtains, Sunshades, Windows **Non Punching Embedded Electric Honeycomb Curtain For Sun Shading And Insulation In Sunlight Rooms**

The electric honeycomb curtain is a high-end indoor sunshade decoration product that is driven by a DC motor. The motor has a small volume, low power, and is safe and reliable. It allows a maximum area of 5 square meters, a load of 5 kilograms, and a height of 3.5 meters. By using a speed control device, the rope winding device on the coaxial line is rotated, pulling the lifting rope up and down to achieve the opening and closing of the curtain fabric. Its unique limit device allows products of different specifications to accurately position up and down. At the same time, when the motor is in a locked rotor state, the power supply to the motor is automatically cut off, which can prevent the motor from being damaged by locked rotor.

## Specification

item	value
Supply Type	In-Stock Items
Material	polyester
Weight	280gsm
Thickness	Very Heavyweight
Width	53/54"
Feature	Waterproof
Technics	Plain
Style	Contemporary
Type	Roller
Pattern	Horizontal
